25X1X

On 29 December 1953, 33 canvas-covered Il-10s were parked in front of the hangars at Stendal-Borstel airfield. There was no air activity. The barracks installations at the field were fully occupied by air force and army troops. passed through the gate of the installation. The light AA gun emplacement along the Stendal-Borstel road was still occupied as previously.

Comment. Stendal airfield is believed to be still occupied by a ground attack regiment and a reconnaissance regiment which are equipped with Il-10s. The aircraft of one regiment, probably the reconnaissance regiment, are apparently parked in the hangars. reported belong to the Third Shock Army in Stendal.
